**Samoa Dunes Recreation Area and Mad River Slough and Dunes Closure Order**

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Notice.

**SUMMARY:** Notice is hereby given related to the emergency temporary closure of Bureau of Land Management (BLM) administered lands to vegetative gathering from November 1 to May 1 of each year in accordance with regulations contained in 43 CFR 8364.1(A). This action affects approximately 412 acres of public land located in the Samoa Dunes Recreation Area and Mad River Slough and Dunes Cooperative Management Area (T.5N., R.1W., Section 31; T.4N., R.1W., Section 6; and T.6N., R.1W., Sections 26, 27, 34, and 35, Humboldt Meridian). These public lands will be temporarily closed to gathering of all vegetative material to protect two federally listed endangered plants, the Menzies' Wallflower and

Beach Layia, and their habitat. During the temporary closure period, the BLM will analyze methods that can be used to protect these resource values. Until this is completed, however, vegetative gatherers will be prevented from meandering throughout the fragile habitat areas, as these plants are extremely difficult to identify during the winter months and unintentional trampling results in resource damage.

**DATES:** This closure order is effective beginning November 1 and ending May 1 of each year.

**ADDRESSES:** Maps and supporting documentation of the areas temporarily closed to vegetative gathering are available for review at the following location: Bureau of Land Management, Arcata Resource Area, 1125 16th Street, room 219, Arcata, CA 95521.

**FOR FURTHER INFORMATION CONTACT:** Lynda J. Roush, Area Manager, at the Arcata address given above. Telephone: (707) 822-7648.

**SUPPLEMENTARY INFORMATION:** The purpose of temporarily closing the Samoa Dunes Recreation Area and Mad River Slough and Dunes Cooperative Management Area to gathering of vegetative material is to prevent visitors from inadvertently trampling Menzies Wallflower and Beach Layia seedlings as they like through these plant habitats. Both plant species are listed as endangered by the U.S. Fish and Wildlife Service. The authority for this closure is 43 CFR 8364.1(A). Any person who fails to comply with this order is subject to arrest and a fine of up to \$100,000 and/or imprisonment not to exceed 12 months.

Dated: October 8, 1992.

Area Manager

**Public Comment Period for the Proposed San Miguel River ACEC**

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Notice of public comment period.

**SUMMARY:** Notice is hereby given in accordance with 43 CFR subpart 1610.7-2 that a 60-day public comment period for the proposed San Miguel River Area of Critical Environmental Concern (ACEC) opens on November 10, 1992.

**DATES:** The comment period opens on November 13, 1992, and comments must be received by the close of business, January 11, 1993.

**ADDRESSES:** Mail all comments to the Manager, Uncompahgre Basin Resource Area, 2505 South Townsend, Montrose, CO 81401.

**SUPPLEMENTARY INFORMATION:** In 1989, The Nature Conservancy submitted an ACEC nomination for the San Miguel River Canyon to BLM's Uncompahgre Basin Resource Area Manager. The San Miguel River has its headwaters in the San Juan Mountains of southwestern Colorado and is one of the last free-flowing rivers remaining in Colorado.

In accordance with BLM Manual 1613 the nominated area was evaluated for its relevance and importance, and as a result, BLM determined that the area met the requirements for designation as an ACEC. Because an ACEC can only be designated through BLM's resource management planning process, a Notice of Intent to Amend the Uncompahgre Basin Resource Management Plan (RMP) was published in the *Federal Register* on February 28, 1991.

As a result of internal scoping, public participation, and coordination with The Nature Conservancy, an alternative was developed that would designate 20,964 acres of Public Lands in the San Miguel River Canyon between the towns of Placerville and Pinon as an ACEC.

Resource use limitations that would occur if the area was designated as an ACEC include: (1) Off-highway vehicle use would be limited to designated roads and trails except for Beaver
